## THE DEMOCRATIC CLUBS.

### MEETING OF THEIR REPR SENTATIVES IN BALTIMORE.

A Jeffersonian Gavel Presented to the  
Chairman — The Republican National  
Notification Committee Calls on Gen-  
eral Harrison at Indianapolis.

BALTIMORE, July 6.—The National com-  
mittee of Democratic clubs in this city  
brought nearly three hundred delegates here  
Wednesday. The day's session was merely  
preliminary, but it called forth a splendid  
speech from F. C. Russell, mayor of  
Cambridge, Mass., and one from Charles  
B. Ogden, of Omaha. Ohio contributed  
among officers and committeemen the fol-  
lowing:

Vice-president, J. M. Kammeron, Cincin-  
nati; secretary, J. E. Bloom, Cincinnati;  
on credentials, W. A. Taylor, Columbus; on  
resolutions, H. F. Booth, Columbus; on  
permanent organization, Fred Klimper, Cin-  
cinnati; on permanent organization of the  
league, D. C. Ballantine, Springfield.

The delegates to the convention of Demo-  
cratic clubs were slow in arriving at the  
hall Thursday morning, owing, doubtless,  
to the intense warm weather and the late hours  
kept by the various committees. The hour appointed for reassembling was 10  
o'clock sharp, but it was 10:35 before the  
chairman called it to order. Meantime Hon.  
John R. Fellows, of New York, made his  
appearance in one of the boxes. He was  
cheered to the echo, and the delegates did  
their best by shouting "Fellows!" "Fellows!"  
to have him make a speech. The demon-  
stration continued for five minutes, but Mr.  
Fellows was obdurate and declined.

Finally Chairman Russell brought his  
gavel down on the desk and the convention  
went to work. The first business was the  
reading by the secretary of the report of the  
committee on credentials.

It showed representation as follows: Alabama  
8 clubs, California 3, Colorado 3, Connecticut  
2, Delaware 4, Florida 1, Georgia 1, Illinois  
48, Indiana 6, Iowa 1, Kansas 3, Kentucky  
38, Louisiana 2, Maine 1, Maryland 71,  
Massachusetts 7, Michigan 8, Minnesota  
4, Mississippi 1, Missouri 3, New Hampshire  
2, Nebraska 26, New Jersey 19, New York  
26, North Carolina 10, Ohio 49, Pennsylvania  
9, Rhode Island 4, South Carolina 2, Vermont  
1, Virginia 19, West Virginia 21, Wisconsin  
7, District of Columbia, 6.

In addition to these, representatives are  
present from the National Independent Colored  
Political union and Negro Democratic  
National League. The report was adopted.

L. R. Cofran, chairman of the committee  
on permanent organization of the conven-  
tion, then made his report, which was unani-  
mously adopted.

The report recommended, for permanent  
president of the convention, Hon. John

officers of the permanent convention, the  
reading clerks, secretaries, stenographers,  
sergeant-at-arms of the temporary organiza-

and assistant secretary from each state.

Chairman Russell appointed L. R. Cofran,  
of West Virginia; Sidney Clarke, of Kansas,  
and J. N. Tuttle, of Wisconsin, a committee

## DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

**ROSSER & McCARTHY,**  
Proprietors.

FRIDAY EVEN'G, JULY 6, 1888.

RAILROADS are pushing out in all directions through Kentucky and there are signs of rapid improvement. The grand old Commonwealth has held back about as long as possible and from now on there will be a new era. Kentucky towns must soon grow, like the Western towns have. Indeed many towns in our State are already showing wonderful life and activity. Maysville ought to, and will, join the procession, and keep up with it, too, if there is proper, well directed attention given to the matter. We possess every natural advantage for any sized city and at last all, or nearly all, the acquired advantages for a modern metropolis. What is needed now, is to let this be known far and wide and so encourage the location here of all sort of manufacturing plants, both big and little. Stores never build up a town, they only supply the wants of a town already built. Towns never go to the stores, the stores come to the towns. It is mills, factories and shops that make cities. In a word it is the producing element that counts in the make up of a city. If Maysville is to have a future at all she must cultivate her manufacturing interests, and her prosperity must spring from them and be due to them. Now valuable modern acquisition to a real live town is a well organized Commercial Club whose object will be by concert of action to take all necessary steps to promote the business welfare of this city and county. It is the duty of such a club to give proper encouragement to manufacturers who may be considering the advisability of locating amongst us, and also to see that the city's advantages are properly presented to the world. Such an organization is needed right here in Maysville and at this time. We not only want to bring capital to Maysville but we also want our local capital that is being hoarded up in banks and invested outside of the State, to be invested in home industries that will not only enrich the investor, but give steady employment to honest labor and thereby contribute to the up-building of our city that we all profess to love so well.

THE result of the November election will be largely decided by the votes of young men. They are chiefly interested in bringing the country back to a condition in which the opportunities for fame and fortune will be more nearly equalized. Our young men should see to it that the young Republic shall not drift into that condition in which money counts for more than brains, and in which legislation constantly tends to the exaltation of rich men, rich corporations and established monopolies at the expense of the masses and to the discouragement of individual force and activity. It seems impossible that the young men of this country can be cajoled into a belief that universal betterment may grow out of taxation, and that the mere ledger-dream of taking a dollar out of the pocket of one man and putting it into the pocket of another man is a means of adding to the wealth of both and the prosperity of everyone else.

CONGRESS has just enacted a law, which has been signed by the President and declares that all envelopes or wrappers or postal cards are unavailable upon which are printed any indecent, scurrilous or threatening epithets or language reflecting injuriously upon the character or conduct of another. The Post Office Department promptly improves upon this law and instructs its Postmasters that "anything in the nature of an offensive and threatening dun apparent upon an envelope, outside cover or postal card, or conveying the suggestion that such dun is enclosed, will be excluded as non-mailable under this act."

It is stated that this country consumes \$3,000,000,000 worth of home manufactured products annually. The average tariff duty is 47 per cent. If the manufacturer only receives 40 per cent. of this protection, then he would get the handsome sum of \$1,200,000,000 from the people in the way of increased prices for his goods each year. This would be \$20 each from every man, woman and child in the country. No wonder there are many millionaires in this land since protection allows them to levy such a tribute upon the people.

THE monopoly and trust defenders in Congress are fighting hard for their friends. Free lumber was an issue the other day, and the lumber trust was backed by the Republicans, but the Democrats believed that the public would be benefited by taking off the tax of \$2 a thousand on lumber, and so it remains on the free list, and if the bill becomes a law the people will not be taxed on their homes for the benefit of the millionaire members of the lumber trust.

**COLONEL SAMUEL A. WALTON,** Chief Clerk in the First Comptroller's Office at Washington City, came in on the train last night en route to Germantown to visit his parents, Mr. and Mrs. John H. Walton.

It is not generally known that the last Legislature passed a general act relative to school matters. This act gives any white school district the privilege of voting "any sum, not exceeding 70 cents on the \$100 and \$2 on the head."

It is now the season of the year when thoughtless individuals invade cemeteries and carry away choice plants and flowers from the graves. These persons ought to know that they have no more right to do this than to enter a door yard without the consent of the owner and steal flowers. To rob graves of the beautiful flowers placed there by loving hands as tribute to the memory of those who rest beneath the sod, shows a spirit of vandalism that ought not to be tolerated in any civilized community.

### Stock, Field and Farm.

To keep flies from the stable, suspend cotton waste, pieces of tow, or any other absorbent material, and keep it moist with common carbolic acid, which is very cheap by the gallon, and the odor of which is wholesome.

He is humane as well as a wise man who covers his horse with a flynet during the active fly season, for the poor beast is entitled to all the relief he can get from the tormenting attentions of the little pests.

At an agricultural meeting the other day "the best way to keep girls on the farm" was discussed. No conclusion was reached, but we think a barbed wire fence six feet high, minus gates, surrounding the farm would solve the problem. A boy takes his life in his hands when he attempts to crawl over or under or through a barbed wire fence, and he doesn't wear a bustle either.

Not only is the fullness of the cheek destroyed but there is a tendency to wrinkling of the skin, a natural result of the falling away of the parts beneath it."

Mammoth Cave—is beyond the description of tongue or pen, one of those indescribable things that can only be appreciated when seen. No amount of eloquence can paint the awful solemnity of the cave, the grandeur of the pits and domes, showing action of water that has been putting in its work for decades, the marble purity of Martha Washington's statue, illusions of the Star Chamber, wonderful reverberations and echoes of Echo River and the interesting blind white fish peculiar to Mammoth Cave. The Cave Hotel is open all the year. The temperature in the caverns never varies, so visitors have privilege of seeing the cave at any season.

## Lawyers' Conference.

The lawyers held a meeting yesterday at the office of Wall & Worthington, on Court street. John G. Hickman, Esq., was elected Chairman, and Allan D. Cole, Esq., Secretary. The object of the meeting was to agree if possible on a general continuance of the docket at the July term of the Mason Circuit Court. The subject was argued at some length, nearly all the lawyers being present. After being discussed it was finally agreed to continue generally all the litigated cases on the civil docket. Consent orders and judgments to be entered in cases where there is no contest. The criminal docket only to be tried and disposed of in the usual order of business.

Judge G. S. Wall and A. M. J. Cochran, Esq., were appointed a committee to ask Judge Cole's consent to the result of the meeting and, we understand, Judge Cole has consented.

Clients, witnesses and jurors will no doubt be glad to escape the July term. The weather is too hot to hold much of a court, and the farmers would find it very inconvenient to get away the full term from their crops. The move of the attorneys is a good one.

## TO RELIEVE EMIN BEY

GERMANY WILL ATTEMPT TO CHECKMATE THE ENGLISH.

The Jury in the London Times Libel Suit Returns a Verdict in Favor of the Paper. Americans in London Celebrate the Fourth in Patriotic Style.

BERLIN, July 6.—An expedition is being formed here to relieve Emin Bey. This is the brief announcement of a very significant fact. It means that Germany is resolved if possible to checkmate English enterprise in equatorial Africa. Emin Bey, the title given to Schweizer, the Austrian, who was Gen. Gordon's surgeon general in Egypt, was by the latter made governor of the equatorial provinces of Africa.

These are assumedly Egyptian provinces, but in reality English, since Egypt is more a dependency of England to-day than of Turkey, and it is the confessed policy of England to make Egypt a dependency. It is a matter of wonder that a German expedition should be organized to go to the aid of Emin Bey, under any circumstances since if the right of Egypt or England as occupants of the province who have through Emin Bey considerably developed it, and guarded it with ten military stations at one time, is recognized, then it is England and Egypt who should relieve Emin Bey.

Moreover, Egypt has given \$50,000 to supply Emin with ammunition and England has, through private channels, contributed \$100,000 for his relief. It is this money with which Stanley was fitted out with the object of relieving Emin. Moreover, the latest news from Emin, as late as December 18, 1886, indicates that he is not positively in need of relief.

The rumor of a white pasha far to the north of Emin, assumedly Stanley, bent on organizing the Bahr Ghazal provinces for England, probably accounts for the German expedition, whose assumed object, the relief of Emin Bey, is probably a pretense. Germany has recently assumed a protectorate over considerable territory on the east coast, and it is probable that the enterprise of Stanley and Emin Bey jeopardize a desired extension of German territory.

### The London Times Libel Suit.

LONDON, July 6.—The trial of the libel suit of Mr. O'Donnell against the Times was resumed to-day. Attorney General Webster, continuing his address, said that no man had been libeled more than Mr. Parnell and yet Mr. O'Donnell was put forward to mire the case. The chief justice intimated that no case had been made for the Times to answer.

Mr. Ruey, counsel for the plaintiff, thought however, that the case might go to the jury on the note which Mr. O'Donnell was mentioned. The chief justice replied: "Very well, if you go on, you will take the responsibility upon yourself."

Mr. Ruey then asked for half an hour in which to consult his client. Mr. Ruey decided to address the jury in reference to two instances in which Mr. O'Donnell's name was mentioned in the Times article. Everything else has been abandoned by the plaintiff.

Mr. Parnell denies that any of the Times' letters produced are authentic.

When Mr. Ruey concluded his address to the jury Chief Justice Coleridge summed up the case strongly against Mr. O'Donnell. He said that if the plaintiff intended his letter to the Times as a vindication of his character, it was difficult to conceive of a weaker protest. The jury returned a verdict for the Times.

### Ambassador's Opinion.

LONDON, July 6.—According to official dispatches received from St. Petersburg, M. De Giers, Russian minister of foreign affairs, informed Sir R. D. Morier, British ambassador, on the 17th of last December, that Bulgarians might do anything and everything they pleased, from cutting each other's throats to decimating Bulgaria an empire, and Russia would not move a finger to prevent them. "Russia," said M. De Giers, "washes her hands of the whole concern." In the opinion of the British ambassador Russia does not intend to provoke war.

### Foreign Notes.

Earl Derby was elected leader in the house of lords and Earl Camperdown was elected whip.

The Liberal Unionist peers held a meeting in London Wednesday, and subscribed a large sum to extend the workings of the party.

The Americans in London celebrated the Fourth in patriotic style. Minister Phelps gave a reception at his residence to about six hundred prominent American and English guests, including Governor Waller, Mr. and Mrs. C. Vanderbilt, Sir William Harcourt, the archbishop of Canterbury, the French ambassador, and others. A banquet was given at the American club Wednesday evening, which was largely attended.

### Prohibition in Connecticut.

HARTFORD, Conn., July 6.—An official report shows that in prohibition Rhode Island 1,250 persons pay special taxes to the United States government for the privilege of liquor selling. United States government licenses have been issued for Rhode Island this year to 1,207 retail and thirty wholesale liquor dealers, five rectifiers, three brewers, sixteen wholesale and thirty retail dealers in malt liquors. The fees aggregate about \$40,000. Rhode Island, with its prohibitory law, does not get a dollar of revenue from the business.

### Monument to Francis Scott Key.

SAN FRANCISCO, July 6.—The Francis Scott Key monument, the gift of the late James Wick, was unveiled Wednesday. The statue of bronze, executed in Rome, and is said by artists to be one of the finest pieces of workmanship in the country. Among those present to witness the unveiling ceremonies were eleven of Mr. Key's descendants. Two of his grandchildren drew the cord that lifted the veil from the monument.

### NIAGARA CRANKS.

Another Dies in Attempting to Pass Through the Whirlpool Rapids.

NIAGARA FALLS, N. Y., July 6.—Robert W. Flack, of Syracuse, died Wednesday afternoon while trying to make a trip through the terrible Whirlpool Rapids in a life-boat of his own invention. Flack had arranged to have a race through the rapids with Charles A. Percy, who claims that he went through in a somewhat similar boat last summer. The trip was preparatory to the race. Flack left his wife and children at Syracuse, but his brother was on hand to see the start.

Flack's last cigar was smoked after dinner

at the New York Central hotel, and appeared to be pretty nervous, but he kept a stiff upper lip, and when he got into the boat Phantom, at the Maid of the Mist landing he seemed to be in pretty good spirits, and remarked as Joe Percy buckled him into the death-trap: "If I should die in this boat it may prevent somebody else from meeting death in the whirlpool."

The Phantom was cut adrift at 3 o'clock and Flack started his propeller wheel, propelled by two cranks inside the boat. Two minutes later he struck the first swell of the rapids. The wave turned him and his boat upside down. The current runs over twenty miles an hour, but Flack's boat was tossed about and turned over so much that over three minutes were required to get to the whirlpool. Three or four times the boat was apparently completely submerged upside down. Finally the boat shot into the maelstrom, and there it stayed for an hour, floating bottom upward, until it neared the Canada shore close enough for swimmers to venture out to get the craft and its dead occupant.

The voyage to death occupied about four minutes. The Phantom kept near the center of the stream, where Flack was continually buried by the breakers. He was alive when near the spot where Capt. Webb ran his head against a rock, but Flack died by strangulation. When near the whirlpool, after his boat had several times been capsized, he responded with a wave of the hand to cheer from the crowd on the top of the banks.

Flack was thirty-nine years old, and was a native of Bristol, England. He came here when twenty-three, and lived for twelve years in Toronto. For four years his home has been in Syracuse, where he has a wife and five children.

ONE HUNDRED AND FIFTY LASHES

Administered to a Hoosier Who Had Slandered His Dead Wife.

NEW ALBANY, Ind., July 6.—Another outrage by the White Caps is reported from Vaseline, Orange county, twenty-five miles from this city. Jonathan Cook, who is employed as a farm hand by Elsie Glanning, was the victim. It is claimed that he had slandered his dead wife, who, to all accounts, was a most estimable woman.

After being warned by anonymous communication to desist, and failing to do so, he was visited by about twenty of these self-styled regulators, tied face foremost to a tree, stripped and given 150 lashes on the bare back. Every blow cut deeply into the flesh, and the whipping was the severest ever administered by that organization. He is expected to die.

After this Mr. Glanning was notified not to re-employ Cook, but the former had armed himself in the meantime, and, after abusing them roundly, fired several shots into the crowd, with what result is not known.

Independence Day Accidents.

SANDUSKY, O., July 6.—Max Myers had his arm horribly lacerated and burned by the premature explosion of a cannon. He will probably lose his arm. Albert Platt had both eyes burned out and face and neck frightfully burned by the explosion of a large package of powder which he was carrying, and into which a lighted match fell.

Declines the Honor.

SANDUSKY, O., July 6.—Rev. Dr. William F. Nichols, of Philadelphia, elected assistant bishop of Ohio at the Protestant Episcopal convention, has declined, stating as a reason that duty bade him remain with his present charge.

Only Mild Hazing.

ANAPOLIS, Md., July 6.—Referring to the reported hazing among the naval cadets on board the practice ship Constellation, Superintendent Sampson, of the Naval Academy, says that his information is that the hazing was of a mild type. A court-martial has been ordered, however, and will be convened as soon as the vessel returns to Anapolis, probably in a few days. The punishment for hazing is dismissal from the navy.
